5/13/72

Dear Mr. Coraki,

You say your neighbor was told by Allan Nye, when he was involved with the CIA (regular employee or contract or mercenary?), that he was part of a plot to kill Castro in the early 60s. We still do not know whether these plots, of which a number are confirmed, had anything to do with the JFK assassination.

Therefore, I'd like to know more, whatever detail your neighbor can supply.

In such cases, there is no detail too insignificant to report.

Appreciate anything you can do.

The name is familiar, but I don't really know why. I suspect I read it somewhere, some time in the past, or one of the mercenaries I've interviewed mentioned it.

Many thanks,

Harold Weisberg
